

Prevent Your Legal Fees From Shrinking

*A Structure is a Guaranteed Method to Grow Your Fees...
Finance a Child's Education...or
Secure Your Retirement.*

Comparative Example of a \$500,000 Attorney's Fee

I. 2007 Cash Fee: Under Professional Management:

Gross Fee	\$500,000
Less 40% in Taxes	(200,000)
Net After-Tax Fee	\$300,000
Value at Year End 2008	\$188,000
1 st Quarter 2009	\$163,000
Value Next Year	(???)
Value in 5 Years	(???)

The Loss on a Cash Fee can be Extensive!

II. 2007 Fee in a Structured Settlement:

Gross Fee	\$500,000
-----------------	-----------

If a Structured Settlement had been agreed to in 2007 Your Fee

- Would be 100% intact without losing a single dollar.
- Would not yet have been taxed and the ENTIRE GROSS FEE would be worth more, still growing and continuing to be secure on a tax-deferred basis.

Settling Any New Cases?

Before Putting Any More of Your Legal Fees at Risk. Remember
